

Connection Creator

1. Fill in the required input fields.
 - **Organization Name:** Office name / Remote office.
 - *"IDS-Raffles Ortigas"*
 - **Activation Code:** 15 Digit Alphanumeric code.
 - *"HOPWMWTJ1568126"*

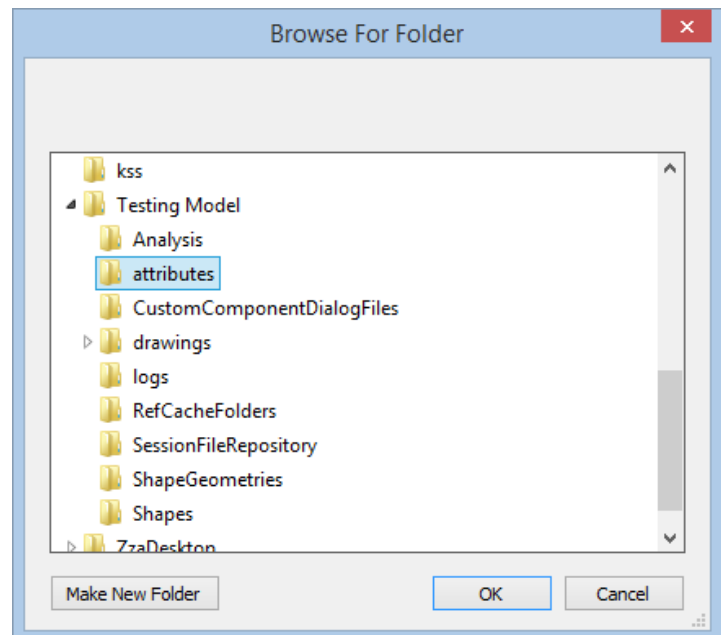

The image shows a dialog box titled "Activation" with a close button (X) in the top right corner. Inside the dialog, there are two text input fields. The first field is labeled "Organization Name:" and the second field is labeled "Activation Code:". Below the input fields, there are two buttons: "Activate" (in blue) and "Close" (in grey).

2. Select location of excel template and output directory of j files.

The image shows a window titled "Connection Creator (.j attribute creator) 1.0.0" with a close button (X) in the top right corner. Inside the window, there are two text input fields. The first field is labeled "Excel template:" and the second field is labeled "Output directory:". To the right of each input field is a button with three dots (...). At the bottom of the window, there are three links: "Check for Update", "Help", and "Get template". To the right of these links are two buttons: "Create" (in blue) and "Close" (in blue).

3. Location of j files can directly locate under *"Model/attribute" folder.*

Wait until j files are being created.
